Shimla-171009

## Infrastructure Equipment

**A Not for Profit Organisation promoted by the ICEMA and NSDC to spearhead the skilling of workforce in the construction equipment industry with primary focus on training and certification of operators and mechanics. The occupational standards drafted by Infrastructure Equipment Skill Council have been approved by the Qualification Review Committee (QRC). These occupational standards are currently under Industry Validation. These have been uploaded for public to share comments or observations with the concerned Sector Skill Council or NSDC. These standards may be used by any training organization to build curriculum and use them for training purposes on the condition that when the industry validation is completed by the Sector Skill Council, if required, they will do the necessary changes in the curriculum.**

**These occupational standards are drafted by Infrastructure Equipment Skill Council and have been reviewed by the Qualification Review Committee (QRC). After these standards have been NSQF aligned/NSQC cleared, these will be promulgated as National Occupational Standards.**
