## Banking & Financial Services

The BFSI Sector Skill Council of India was recently set up to bring leading organizations of the BFSI industry together to create strategies and operational plans that will create standardized skill requirements for the various job roles in the industry. The skill council will also accredit well-equipped service providers who will partner to disseminate the training. The skill council is seen by its stakeholders and partners as a nation-building activity with far reaching implications for social development and empowerment through financial inclusion. Great care is being taken to appropriately address the needs of the various industry verticals as well as the geographical regions of the country.

NSDC has been in close contact with the BFSI Sector Skill Council as we partner to address skill development needs in a large, highly segmented industry which is characterized by accelerated growth. The progress of the BFSI industry has significant impact on the progress of our nation and the issue of skill development is one that the industry holds as being of great importance.
