Aerospace & Aviation

Aerospace and Aviation Sector Skill Council (AASSC) is the apex body in skill development in the emerging Aerospace and Aviation sector. AASSC has been formed under the Government and Industry led initiative to skill Indian labour force. AASSC is one of the various Sector Skill Councils (SSC) which has been formed with the help of grant from National Skill Development Corporation (NSDC). NSDC provides support to all SSCs during the initial years of operations in the form of grant.

AASSC was incorporated as a Section 8 Company (under Companies Act 2013) on 12th September 2014. The promoters of the company are Hindustan Aeronautics Limited (HAL), Bangalore Chamber of Industries & Commerce (BCIC) and Society of Indian Aerospace Technologies & Industries (SIATI). In addition to the equity contribution from its promoters, the company has received grant from National Skill Development Corporation.

The Government of India has launched several flagship programs like Make in India, Digital India, Smart City, Swachh Bharat and Start up India to take our country to the next level of growth. A similar initiative, “Skill India” is an ambitious program that aims to train 40 crore Indians in different skills by 2022. The Skill India program is designed to be fundamental to the success of all other flagship programs. The tagline of the “Skill India” logo aptly says it all – Kaushal Bharat, Kushal Bharat (Skilled India, Successful India).

Various initiatives by the Government of India towards Skill Development are formation of new Ministry of Skill Development and Entrepreneurship (MSDE), setting up of National Skill Development Corporation (NSDC), notification of National Skills Qualification Framework (NSQF), promulgation of National Policy on Skill Development and Entrepreneurship – 2015 and formation of Sector Skill Councils (SSC).

KPMG Advisory Services Private Limited was appointed by AASSC to prepare occupational map and to develop NOS for various Job Roles cutting across the following five sub-sectors:

- Aerospace Design & Development
- Aerospace Manufacturing & Assembly
- Airline Operations
- Airport Operations, Cargo & Ground Handling
- Maintenance Repair & Overhaul (MRO)
