Plumbing

Indian Plumbing Skills Council (IPSC) is the apex Sector Skill Council for the Plumbing Industry, operating under the aegis of National Skills Development Corporation (NSDC), an initiative of the Government of India (Ministry of Skill Development and Entrepreneurship - MSDE) to transform India as a hub for skilled manpower as envisioned by our Prime Minister Shri Narendra Modi. We are a not-for-profit organization that acts as an accreditation and a certifying body, working towards minimising the gap between the skilled and the unskilled plumbing workforce in India. IPSC endeavors to address these issues and bring the skill levels in our country to world standards.

The purpose of establishing the Indian Plumbing Skills Council (IPSC) is to ensure that skilled & certified manpower in adequate numbers is provided across industries and to raise plumbing standards in India to global levels. It will maintain a dynamic LMIS (Labour Management Information System) to keep track of the Labour Market Skill gaps, frame Occupational Standards, facilitate development of practical and high-quality training content, ensure adequate availability of faculty through Training of Trainer initiatives, build Accreditation and Certification mechanisms and encourage capacity building through private sector participation.
